

2013 TRIATHLON

TRI

It can Run 100 miles without stopping and Ride for three weeks straight over oxygen-starved mountain passes. It navigates death-defying rock gardens like they weren't there, and swims, bikes and runs towards the finish line for up to 10 hours...

The human machine is the most perfect machine ever created. Empowering that machine to go faster, farther and longer than it has ever gone before is what Pearl Izumi strives for.

First, our gear must be intricately and seamlessly connected to the athlete in motion—we call this design 1:1 Anatomic Interface. Equipment that blurs the line between athlete and gear. Every single detail is there for a reason. And every single gram/seam/bit of marketing fluff that is not there, is not there for a reason.

Pearl Izumi products offer benefits that optimize performance...period. Whether that is keeping you dry and warm when Mother Nature refuses to cooperate, or keeping you cool and dry when the temperature rises to extreme levels...our mantra is Run/Ride 365. Our passion is empowering people to run and ride every single day, no matter the weather forecast.

WE ARE CHAMPIONS OF THE HUMAN MACHINE

365 CLIMATE SYSTEM

PI 365 SOLUTIONS ARE TRUE TO OUR CORE THINKING THAT LESS = MORE

Fewer layers of garments equal less weight, less bulk and faster, lighter solutions.

Four core PI fabric technologies (Transfer, Barrier, Thermal and Softshell) create a system that works to help you maintain the perfect temperature for the weather conditions and activity range – day in and day out.

P.I. TRANSFER

The Pearl Izumi® Transfer System is the global standard for ultra-high performance moisture transfer and cool, dry comfort. Patented one-way capillary action and hydrophilic fibers actively pull moisture away from the skin, giving you epic, lasting comfort even at the highest exertion levels.

P.I. BARRIER

Lightweight, breathable and infinitely versatile. Offering unbeatable protection and performance. Exclusive microfilament fabrics deliver high-level wind and water resistance together with remarkable breathability.

P.I. THERMAL

The Pearl Izumi Thermal System merges our 60+ years of moisture transfer technology with thermal regulation to keep athletes dry and comfortable in cool to cold temperatures.

P.I. SOFTSHELL

Pearl Izumi pioneered the softshell revolution almost two decades ago when it introduced durable + waterproof + windproof + breathable + thermal stretch laminates to tights and shoe covers. Today the Pearl Izumi Softshell System continues to lead with the highest performing softshell solutions available for aerobic activities.

1:1 ANATOMIC INTERFACE

1:1 IS THE FINE ART OF CREATING PRODUCTS THAT ACT LIKE A SECOND SKIN, TO SUPPORT AND GUIDE IN PERFECT HARMONY.

Power delivery, alignment and cushioning are facilitated...no, empowered...by science and insight. Details that ultimately help you perform better. 360 degree support. Molded heel cups. Insanely anatomic perfection. Fabric technologies utilized to warm or cool the body. The thoughtful placement of a seam to avoid a hot spot or the elimination of seams altogether...like our revolutionary Seamless Upper.

Performance and function hand-in-hand. Passion makes perfect.

P.R.O.

The P.R.O. (Performance & Race Optimized) Series is 3D Motion Engineered for the demanding triathlete with the highest standards for leading edge apparel design, construction and craftsmanship.

Aerodynamic Fabric

The image shows a close-up of a dark fabric with a white and red logo, likely a cycling jersey, illustrating the aerodynamic fabric technology.

Deliver 8-12 watts of savings

In-R-Cool® Fabric

The image shows a bright sunset or sunrise over a field, illustrating the In-R-Cool fabric technology that reflects the sun's rays.

Reflect the sun's rays to reduce
the fabric's surface temperature by up
to 35° fahrenheit/14° celsius

P.R.O. Transfer Acquazero®

The image shows a close-up of a dark fabric with water droplets, illustrating the P.R.O. Transfer Acquazero fabric technology that is water repellent.

Water repellent fabric for optimal

Octane Tri Suit

300

Pushing technology and innovation, the Octane Tri Suit was inspired by our Pro Tour Team speed suits and Tim DeBoom's race kit. This suit incorporates advanced transfer aero with In-R-Cool® fabric and 1:1 patented sleeve construction to make this the most aerodynamic piece offered on the tri market.

- P.R.O. Transfer Aero with In-R-Cool® fabric powered by coldblack® provides aerodynamic benefits and optimal cooling with reflective sun protection
- Overlock stitch construction for superior next-to-skin comfort and graphic alignment
- 10" zipper for venting
- Streamlined welded hem for comfort
- Two back streamlined easy access envelope pockets
- TRI quick-dry chamois
- Sublimated graphics
- Laundry bag included
- 10" inseam (size medium)

Body: 78% polyester 22% elastane/ UPF 50+

W ELITE In-R-Cool® Tri Race Short

85

Designed for both training and racing, the Women's ELITE In-R-Cool® Tri Race Short is constructed with our innovative In-R-Cool® fabric technology. Superior cooling and sun protection combined with an anti-odor, thermal-regulating chamois offer exceptional performance. This short is for those who prefer a lower rise and shorter inseam than our Women's ELITE In-R-Cool® Tri Short.

- ELITE Transfer In-R-Cool® fabric powered by coldblack® provides superior cooling and reflective sun protection
- ELITE Transfer In-R-Cool® fabric features Lycra® Sport that helps garments maintain original compression levels
- Marrow stitch construction for superior next-to-skin comfort
- Plush elastic silicone leg gripper
- Flattering wide waistband for superior comfort
- Stretch drawcord for superior comfort and fit
- One back easy access envelope pocket
- TRI quick-dry chamois
- 6" inseam (size medium)

Body: 80% nylon 12% Lycra® Spandex 8% polyester/ UPF 50+

PEARL IZUMI'S LIMITED LIFETIME WARRANTY

Pearl Izumi® product is built to last the lifetime of the garment, and this is how long we will stand behind it. Product purchased from Pearl Izumi® or an authorized dealer is fully warranted to the original owner against defects in materials and workmanship (proof of purchase may be requested). If a product fails due to a manufacturing or materials defect, even after extended use, we will replace or repair it to restore the original function without charge, at our option. This warranty does not include product failures resulting from accidents, misuse, improper care, or normal wear.

All warranty returns must be insured and shipment costs paid by the shipper. State law requires that products accepted for warranty be clean. Cleaning charges will be assessed when dirty product is received. Please return warranty items to your local authorized Pearl Izumi dealer or to Pearl Izumi Attn: Warranty Dept, 1886 Prairie Way, Louisville, CO 80027. Please include your contact information (name, address, phone number, email address) along with a description of the product defect. This warranty policy supersedes all previous warranty policies. For further information email inquiries to warranty@pearlizumi.com <<mailto:warranty@pearlizumi.com>> or refer to www.pearlizumi.com <<http://www.pearlizumi.com>>
